Thanks Linda, this does help. I've had some contact from another part of the family and found out that Elizabeth was married a total of four times, twice after John's death. I've also found a Sinnett Hollow on a map, located outside of Speed past the Round Knob Cemetery. This may be the area John settled and is buried with his first wife Elizabeth Propst. I need to check the land titles the next time I'm in WV. With Samuel and his family buried in the Round Knob Cemetery, this Hollow must have been full of Sinnett's. The funny thing is that I've been to the cemetery many times but never went any farther down the road to the hollow. So close but yet so far I guess.
