LOWE: Looking for information on the death dates and possible burial locations of Levi Lowe (b.1760), other claims have been made of his death to be on, or after, 26 Sept 1831 in Kanawha Co (Roane). His wife was Sarah Elizabeth Kincaid (b.1770), other claims have been made of her death being in the year 1830 also in Kanawha Co (Roane).

I'm looking for any information and proof of these death dates and possible burial locations.

People have posted these possible death dates on Ancestry, but do not provide source or answer my email queries.

I haven't found the proof or source, but the family history says they lived in Kanawha Co (Roane). Some of their children did live in the county at that time, having relocated from Monroe/Greenbrier/Summers. I have not been able to locate them listed in any census at that time for lack of family member names being listed.

They possibly lived with or near their son Bradley Lowe (b.1798) and wife Nancy Carter who had a son, Levi born in 1831 and possibly named after his grandfather having passed recently??
