Locate the appropriate reference work in the topics list in the Lookups Forum. Each topic represents a specific reference book or a series of related volumes. Within a topic you may find contact and other information as posted by our lookup volunteers. Please contact the volunteer directly, and do not post the request directly in the forum. Also, please keep in mind that the volunteers are giving freely of their time to assist others with genealogical research in Roane County, so please make each request separately and make it as specific as possible, providing both the name of the reference work and the information you are requesting. Please observe any additional restrictions or instructions given in the volunteer's entry.

For the best experience, be sure to register and sign in if you have not yet done so.
