SPENCER STATE HOSPITAL [1893-1989] I am working on an album project which will contain any information, photos, [census records from 1900-1940], and interesting stories remembered by former employees & towns-people about Spencer State Hospital, Roane Co., WV. The project started for me a few months ago when someone inquired about a relative who had been a patient there. I now have compiled records of thousands [and still counting] of persons who were patients there; some were there most of their lives, some just a few days, many died there. When complete, a copy will be donated to the Roane County Historical Society's library located in Spencer, If you have questions or stories, memorabilia, especially old photos to share please contact me at WVRoots@aol.com Thanks so much, Linda Cottrell Liss
